Re JCB Generator Warranty Coverage

Standard ('Prime Power') warranty terms for all JCB Generator products (including lighting towers) are 12 months from date of sale. There is no limitation on machine hours.

Alternative ('Standby') warranty terms are 24 months from date of sale or 500 machine hours, whichever is earlier. Standby warranty must be specified at the point of sale.

The following items are covered under standard warranty for all Generator products unless specifically excluded in the conditions of sale documentation.

- Engine
- Alternator (including AVR and current transformers)
- Canopy
- Base frame
- Fuel system
- Cooling system
- Control system and cabling.

Specific exclusions for warranty failures include, but are not limited to:

- Any failures attributable to customer abuse or neglect.
- Unapproved modifications
- Inappropriate operating conditions (excessively high or low loading or environmental conditions)
- Electrical fuses and bulbs

A complete description of the warranty coverage, including terms and conditions is available as a part of the conditions of sale document supplied to each dealer.
